

Aethera Studio

Prompt: Cinematic Hero Section with Looping Video Background

Create a fullscreen single-page hero section using React + Vite + Tailwind CSS + TypeScript with the following specifications:

Fonts:

Display text (headings, logo): Instrument Serif

Body text (navigation, descriptions): Inter

Import both fonts in /src/styles/fonts.css

Video Background:

URL:

https://d8j0ntlcm91z4.cloudfront.net/user_38xzZboKViGWJOttwIXH07IWA1P/hf_20260328_083109_283f3553-e28f-428b-a723-d639c617eb2b.mp4

Position: top: '300px' with inset: 'auto 0 0 0'

Implement custom fade-in/fade-out loop logic using React useEffect and useRef:

Use requestAnimationFrame to continuously monitor currentTime and duration

Fade in over 0.5s at the start (opacity 0 to 1)

Fade out over 0.5s before the end (opacity 1 to 0)

On ended event: set opacity to 0, wait 100ms, reset currentTime = 0, then play() again

This creates a seamless manual loop with smooth fade transitions

Add gradient overlays: absolute inset-0 bg-gradient-to-b from-background via-transparent to-background positioned over the video

Navigation Bar:

Logo: "Aethera[®]" (with registered trademark symbol as superscript)

Logo styling: text-3xl, tracking-tight, Instrument Serif, color #000000

Menu items: Home (color #000000), Studio, About, Journal, Reach Us (all others #6F6F6F)

Menu items: text-sm with transition-colors

CTA button: "Begin Journey", rounded-full, px-6 py-2.5, text-sm, black background (#000000), white text, hover scale 1.03

Layout: flex justify-between, px-8 py-6, max-w-7xl mx-auto

Hero Section:

Positioning: paddingTop: 'calc(8rem - 75px)', pb-40

Layout: centered (flex flex-col items-center justify-center text-center), px-6

Headline:

Text: "Beyond silence, we build the eternal."

Styling: text-5xl sm:text-7xl md:text-8xl, max-w-7xl, font-normal

Font: Instrument Serif

Line height: 0.95

Letter spacing: -2.46px

Color: #000000 for main text, #6F6F6F for italic emphasized words ("silence," and "the eternal.")

Animation: animate-fade-rise

Description:

Text: "Building platforms for brilliant minds, fearless makers, and thoughtful souls. Through the noise, we craft digital havens for deep work and pure flows."

Styling: text-base sm:text-lg, max-w-2xl, mt-8, leading-relaxed

Color: #6F6F6F

Animation: animate-fade-rise-delay

Hero CTA Button:

Text: "Begin Journey"

Styling: rounded-full, px-14 py-5, text-base, mt-12

Colors: black background (#000000), white text (FFFFFF)

Hover: scale 1.03

Animation: animate-fade-rise-delay-2

Colors:

Background: white (#FFFFFF)

Headlines/logos/buttons: black (#000000)

Descriptions/menu items: gray (#6F6F6F)

Button text: white (#FFFFFF)

Animations (in /src/styles/theme.css):

fade-rise: opacity 0 to 1, translateY 20px to 0, duration 0.8s, ease-out

fade-rise-delay: same as fade-rise but with 0.2s delay

fade-rise-delay-2: same as fade-rise but with 0.4s delay

Layout Structure:

Container: relative min-h-screen w-full overflow-hidden

Background video layer (z-0)

Gradient overlay on video

Navigation bar (z-10)

Hero section (z-10)

All elements should be responsive and maintain the glassmorphic aesthetic with the specified padding, positioning, and smooth animations.
