

Liquid Glass Agency

Build a dark, premium, single-page landing page for an AI-powered web design agency using React + Vite + Tailwind CSS + shadcn/ui + Framer Motion (motion/react). The page has a luxury editorial aesthetic -- black backgrounds, white text, liquid glass (glassmorphism) effects, and cinematic video backgrounds.

FONTS

Import from Google Fonts:

<https://fonts.googleapis.com/css2?family=Instrument+Serif:ital@0;1&family=Barlow:wght@300;400;500;600&display=swap>

- Headings: Instrument Serif (italic) -- used via Tailwind class font-heading
- Body: Barlow (weights 300, 400, 500, 600) -- used via Tailwind class font-body

Tailwind config extends fontFamily:

```
heading: ["Instrument Serif", "serif"]
```

```
body: ["Barlow", "sans-serif"]
```

COLOR THEME (CSS custom properties, HSL format)

```
:root {  
  --background: 213 45% 67%;  
  --foreground: 0 0% 100%;  
  --card: 213 45% 62%;  
  --card-foreground: 0 0% 100%;  
  --primary: 0 0% 100%;  
  --primary-foreground: 213 45% 67%;  
  --secondary: 213 45% 72%;  
  --secondary-foreground: 0 0% 100%;
```

```

--muted: 213 35% 60%;
--muted-foreground: 0 0% 100% / 0.7;
--accent: 213 45% 72%;
--accent-foreground: 0 0% 100%;
--destructive: 0 84.2% 60.2%;
--border: 0 0% 100% / 0.2;
--input: 0 0% 100% / 0.2;
--ring: 0 0% 100% / 0.3;
--radius: 9999px;
--glass-bg: rgba(255, 255, 255, 0.12);
--glass-border: rgba(255, 255, 255, 0.25);
--glass-shadow: 0 4px 30px rgba(0, 0, 0, 0.08);
--glass-blur: 16px;
}

```

LIQUID GLASS CSS (the core visual effect)

Two utility classes defined in index.css under @layer components:

.liquid-glass (subtle):

```

.liquid-glass {
  background: rgba(255, 255, 255, 0.01);
  background-blend-mode: luminosity;
  backdrop-filter: blur(4px);
  -webkit-backdrop-filter: blur(4px);
  border: none;
  box-shadow: inset 0 1px 1px rgba(255, 255, 255, 0.1);
  position: relative;
  overflow: hidden;
}

.liquid-glass::before {
  content: '';

```

```
position: absolute;
inset: 0;
border-radius: inherit;
padding: 1.4px;
background: linear-gradient(
  180deg,
  rgba(255, 255, 255, 0.45) 0%,
  rgba(255, 255, 255, 0.15) 20%,
  rgba(255, 255, 255, 0) 40%,
  rgba(255, 255, 255, 0) 60%,
  rgba(255, 255, 255, 0.15) 80%,
  rgba(255, 255, 255, 0.45) 100%
);
-webkit-mask: linear-gradient(#fff 0 0) content-box, linear-gradient(#fff 0 0);
-webkit-mask-composite: xor;
mask-composite: exclude;
pointer-events: none;
}
```

.liquid-glass-strong (more prominent, used on CTA buttons):

```
.liquid-glass-strong {
background: rgba(255, 255, 255, 0.01);
background-blend-mode: luminosity;
backdrop-filter: blur(50px);
-webkit-backdrop-filter: blur(50px);
border: none;
box-shadow: 4px 4px 4px rgba(0, 0, 0, 0.05),
  inset 0 1px 1px rgba(255, 255, 255, 0.15);
position: relative;
overflow: hidden;
}
```

```
.liquid-glass-strong::before {
  content: '';
  position: absolute;
  inset: 0;
  border-radius: inherit;
  padding: 1.4px;
  background: linear-gradient(
    180deg,
    rgba(255, 255, 255, 0.5) 0%,
    rgba(255, 255, 255, 0.2) 20%,
    rgba(255, 255, 255, 0) 40%,
    rgba(255, 255, 255, 0) 60%,
    rgba(255, 255, 255, 0.2) 80%,
    rgba(255, 255, 255, 0.5) 100%
  );
  -webkit-mask: linear-gradient(#fff 0 0) content-box, linear-gradient(#fff 0 0);
  -webkit-mask-composite: xor;
  mask-composite: exclude;
  pointer-events: none;
}
```

The ::before pseudo-element creates a gradient border effect using the mask-composite trick (thin glowing border that fades in the middle).

SECTION-BY-SECTION BREAKDOWN

1. NAVBAR (fixed, floating)

- Fixed position: fixed top-4 left-0 right-0 z-50, horizontal padding px-8 lg:px-16, vertical py-3
- Left: Logo image (h-12 w-12)
- Center (desktop only, hidden md:flex): Navigation links inside a liquid-glass rounded-full px-1.5 py-1 pill container
 - Links: "Home", "Services", "Work", "Process", "Pricing"
 - Each link: px-3 py-2 text-sm font-medium text-foreground/90 font-body
 - Last item: white solid button "Get Started" with ArrowUpRight icon, bg-white text-black rounded-full px-3.5 py-1.5 text-sm

2. HERO SECTION

- Container: relative overflow-visible, fixed height 1000px
- Background video: <video> tag with autoPlay, loop, muted, playsInline. Positioned absolute left-0 w-full h-auto object-contain z-0 with top: 20%. Source is the CloudFront MP4 URL. Poster is /images/hero_bg.jpeg.
- Dark overlay: absolute inset-0 bg-black/5 z-0
- Bottom gradient fade: absolute bottom-0, height 300px, linear-gradient(to bottom, transparent, black)
- Content (z-10, centered, paddingTop: 150px):

- Badge pill: liquid-glass rounded-full px-1 py-1 with inner white "New" badge (bg-white text-black rounded-full px-3 py-1 text-xs font-semibold) and text "Introducing AI-powered web design."
- Heading (BlurText component): "The Website Your Brand Deserves" -- text-6xl md:text-7xl lg:text-[5.5rem] font-heading italic text-foreground leading-[0.8] max-w-2xl tracking-[-4px], animated word-by-word from bottom with blur, delay 100ms
- Subtext (motion.p): "Stunning design. Blazing performance. Built by AI, refined by experts. This is web design, wildly reimaged." -- blur-in animation, delay 0.8s, text-sm md:text-base text-white font-body font-light leading-tight
- CTA buttons (motion.div, delay 1.1s):
 - "Get Started" -- liquid-glass-strong rounded-full px-5 py-2.5 with ArrowUpRight icon
 - "Watch the Film" -- text-only with Play icon (filled)
- Partners bar at bottom (mt-auto pb-8 pt-16): "Trusted by the teams behind" liquid-glass pill, then 5 partner names rendered in text-2xl md:text-3xl font-heading italic text-white with gap-12 md:gap-16: Stripe, Vercel, Linear, Notion, Figma

3. BlurText COMPONENT (custom animated text)

- Splits text by words or letters
- Uses IntersectionObserver to trigger on scroll
- Each word/letter is a <motion.span> that animates from {filter: 'blur(10px)', opacity: 0, y: 50} (when direction=bottom) through {filter: 'blur(5px)', opacity: 0.5, y: -5} to {filter: 'blur(0px)', opacity: 1, y: 0}
- Staggered by index with configurable delay (default 200ms per element)
- Step duration 0.35s per keyframe step

4. START SECTION ("How It Works")

- Full-width section with HLS video background using hls.js library
- Video: autoPlay, loop, muted, playsInline, absolute inset-0 w-full h-full object-cover
- Top and bottom gradient fades (200px each, black to transparent)
- Content centered (z-10, minHeight 500px):
 - Badge: "How It Works" in liquid-glass rounded-full px-3.5 py-1
 - Heading: "You dream it. We ship it." -- text-4xl md:text-5xl lg:text-6xl font-heading italic tracking-tight leading-[0.9]
 - Subtext: "Share your vision. Our AI handles the rest--wireframes, design, code, launch. All in days, not quarters." -- text-white/60 font-body font-light text-sm md:text-base

- CTA: "Get Started" liquid-glass-strong rounded-full px-6 py-3

5. FEATURES CHESS (alternating rows)

- Section header: "Capabilities" badge + "Pro features. Zero complexity." heading
- Row 1 (flex, content left / image right):
 - Title: "Designed to convert. Built to perform."
 - Body: "Every pixel is intentional. Our AI studies what works across thousands of top sites--then builds yours to outperform them all."
 - Button: "Learn more" liquid-glass-strong
 - Gif: <https://motionsites.ai/assets/hero-finlytic-preview-CV9g0FHP.gif> download and place inside liquid-glass rounded-2xl overflow-hidden
- Row 2 (flex-row-reverse, content right / image left):
 - Title: "It gets smarter. Automatically."
 - Body: "Your site evolves on its own. AI monitors every click, scroll, and conversion--then optimizes in real time. No manual updates. Ever."
 - Button: "See how it works" liquid-glass-strong
 - gif: https://motionsites.ai/assets/hero-wealth-preview-B70idl_u.gif download and place inside liquid-glass rounded-2xl overflow-hidden

6. FEATURES GRID ("Why Us")

- Section header: "Why Us" badge + "The difference is everything." heading
- 4-column grid (grid-cols-1 md:grid-cols-2 lg:grid-cols-4 gap-6), each card is liquid-glass rounded-2xl p-6:
 - Icon: Zap -- "Days, Not Months" -- "Concept to launch at a pace that redefines fast. Because waiting isn't a strategy."
 - Icon: Palette -- "Obsessively Crafted" -- "Every detail considered. Every element refined. Design so precise, it feels inevitable."
 - Icon: BarChart3 -- "Built to Convert" -- "Layouts informed by data. Decisions backed by performance. Results you can measure."
 - Icon: Shield -- "Secure by Default" -- "Enterprise-grade protection comes standard. SSL, DDoS mitigation, compliance. All included."
 - Each icon sits in a liquid-glass-strong rounded-full w-10 h-10 circle

7. STATS SECTION

- HLS video background (Mux URL), displayed with filter: saturate(0) (desaturated/B&W)
- Top and bottom gradient fades (200px each)

- Content: liquid-glass rounded-3xl p-12 md:p-16 card with 4-column grid:

- "200+" / "Sites launched"
- "98%" / "Client satisfaction"
- "3.2x" / "More conversions"
- "5 days" / "Average delivery"
- Values: text-4xl md:text-5xl lg:text-6xl font-heading italic
- Labels: text-white/60 font-body font-light text-sm

8. TESTIMONIALS

- Section header: "What They Say" badge + "Don't take our word for it." heading
- 3-column grid (md:grid-cols-3 gap-6), each card is liquid-glass rounded-2xl p-8:
 - a. "A complete rebuild in five days. The result outperformed everything we'd spent months building before." -- Sarah Chen, CEO, Luminary
 - b. "Conversions up 4x. That's not a typo. The design just works differently when it's built on real data." -- Marcus Webb, Head of Growth, Arcline
 - c. "They didn't just design our site. They defined our brand. World-class doesn't begin to cover it." -- Elena Voss, Brand Director, Helix
 - Quote: text-white/80 font-body font-light text-sm italic
 - Name: text-white font-body font-medium text-sm
 - Role: text-white/50 font-body font-light text-xs

9. CTA + FOOTER

- HLS video background (Mux URL)
- Top and bottom gradient fades (200px each)
- Content (z-10, centered):
 - Heading: "Your next website starts here." -- text-5xl md:text-6xl lg:text-7xl font-heading italic leading-[0.85]
 - Subtext: "Book a free strategy call. See what AI-powered design can do. No commitment, no pressure. Just possibilities."
 - Two buttons:
 - "Book a Call" -- liquid-glass-strong rounded-full px-6 py-3
 - "View Pricing" -- bg-white text-black rounded-full px-6 py-3
 - Footer bar (mt-32 pt-8 border-t border-white/10):
 - Left: "(c) 2026 Studio. All rights reserved." text-white/40 text-xs

- Right: "Privacy", "Terms", "Contact" links text-white/40 text-xs

    </div>  
  </div>  
</div>
```

ANIMATION PATTERNS

1. BlurText (heading): Word-by-word stagger from bottom with gaussian blur dissolve, IntersectionObserver triggered
2. Hero subtext: motion.p with filter: blur(10px) -> blur(0px), opacity: 0 -> 1, y: 20 -> 0, delay 0.8s, duration 0.6s
3. Hero CTA buttons: Same blur-in pattern, delay 1.1s
4. All video backgrounds: autoPlay, loop, muted, playsInline with top/bottom black gradient fades (200px typically, 300px on hero bottom)

DESIGN PATTERNS USED THROUGHOUT

- Every section badge: liquid-glass rounded-full px-3.5 py-1 text-xs font-medium text-white font-body
- Every section heading: text-4xl md:text-5xl lg:text-6xl font-heading italic text-white tracking-tight leading-[0.9]
- Every body text: text-white/60 or text-white/70, font-body font-light text-sm md:text-base
- Primary CTA: liquid-glass-strong rounded-full with ArrowUpRight icon
- Secondary CTA: bg-white text-black rounded-full
- Card containers: liquid-glass rounded-2xl
- Video overlay fades: always linear-gradient(to bottom/top, black, transparent) with pointer-events-none
