

Asme-Hero Section

Build a single-page hero section with a full-screen looping background video, liquid glass UI elements, and a dark cinematic aesthetic. Use React, TypeScript, Tailwind CSS, and Lucide React icons. Here are the exact specifications:

Background Video:

Full-screen muted autoplaying video covering the entire viewport, positioned absolutely with `object-cover`

Video source URL:

https://d8j0ntlcm91z4.cloudfront.net/user_38xzZboKViGWJOttwIXH07lWA1P/hf_20260328_115001_bcdaa3b4-03de-47e7-ad63-ae3e392c32d4.mp4

The video is shifted down by 17% (`translate-y-[17%]`) so the top portion of the video is cropped - the interesting content is in the lower portion of the frame

The video loops seamlessly with a custom JavaScript fade system (no CSS transitions): 500ms `requestAnimationFrame`-based fade-in on load/loop start, 500ms fade-out when 0.55 seconds remain before the video ends. A `fadingOutRef` boolean prevents re-triggering the fade-out from repeated `timeUpdate` events. On ended, opacity is set to 0, then after 100ms the video resets to `currentTime = 0`, plays, and fades back in. Each new fade cancels any running animation frame to prevent competing animations. Fades resume from the current opacity rather than snapping.

The outer container is `min-h-screen bg-black with overflow-hidden`

Font:

Import Google Font "Instrument Serif" (both regular and italic) via CSS `@import url('https://fonts.googleapis.com/css2?family=Instrument+Serif:ital@0;1&display=swap')`

The heading uses `fontFamily: "Instrument Serif", serif` applied via inline style

Liquid Glass CSS (`.liquid-glass` class):

`background: rgba(255, 255, 255, 0.01) with background-blend-mode: luminosity`

backdrop-filter: blur(4px) and -webkit-backdrop-filter: blur(4px)

border: none

box-shadow: inset 0 1px 1px rgba(255, 255, 255, 0.1)

position: relative; overflow: hidden

A ::before pseudo-element creates the glass border effect:

position: absolute; inset: 0; border-radius: inherit; padding: 1.4px

background: linear-gradient(180deg, rgba(255,255,255,0.45) 0%, rgba(255,255,255,0.15) 20%, rgba(255,255,255,0) 40%, rgba(255,255,255,0) 60%, rgba(255,255,255,0.15) 80%, rgba(255,255,255,0.45) 100%)

Mask trick for border-only rendering: -webkit-mask: linear-gradient(#fff 0 0) content-box, linear-gradient(#fff 0 0); -webkit-mask-composite: xor; mask-composite: exclude

pointer-events: none

Layout (all inside one full-screen flex column):

Navigation bar (relative z-20, padding pl-6 pr-6 py-6):

Inner container: rounded-full px-6 py-3 flex items-center justify-between max-w-5xl mx-auto

Left side: Logo area with a Globe icon (size 24) and text "Asme" in white, font-semibold text-lg, with gap-2

Next to the logo (with gap-8): three nav links ("Features", "Pricing", "About") -- hidden on mobile, shown on md: -- styled text-white/80 hover:text-white transition-colors text-sm font-medium

Right side (gap-4): "Sign Up" as plain white text button, "Login" as a liquid-glass rounded-full px-6 py-2 button

Hero content area (relative z-10 flex-1 flex flex-col items-center justify-center px-6 py-12 text-center -translate-y-[20%]):

Heading: "Built for the curious" -- text-5xl md:text-6xl lg:text-7xl text-white mb-8 tracking-tight whitespace-nowrap with Instrument Serif font

Below the heading, a max-w-xl w-full space-y-4 container:

Email input bar: liquid-glass rounded-full pl-6 pr-2 py-2 flex items-center gap-3. Inside: a transparent email input (placeholder: "Enter your email", text-white placeholder:text-white/40

text-base) and a white circular submit button (bg-white rounded-full p-3 text-black) containing an ArrowRight icon (size 20)

Subtitle text: text-white text-sm leading-relaxed px-4 -- "Stay updated with the latest news and insights. Subscribe to our newsletter today and never miss out on exciting updates."

Manifesto button: centered, liquid-glass rounded-full px-8 py-3 text-white text-sm font-medium hover:bg-white/5 transition-colors

Social icons footer (relative z-10 flex justify-center gap-4 pb-12):

Three circular icon buttons, each liquid-glass rounded-full p-4 text-white/80 hover:text-white hover:bg-white/5 transition-all

Icons: Instagram, Twitter, Globe (all size 20) from lucide-react

Each has an aria-label

Tech stack: Vite + React 18 + TypeScript, Tailwind CSS 3, lucide-react for all icons. Default Tailwind config with no extensions. No other UI libraries.
